Where the European Commission has recognised a non-EEA country as providing an adequate level of data protection, your personal data may be transferred on this basis.

For transfers to non-EEA countries where the level of protection has not been recognized as adequate by the European Commission, we will either rely on a derogation applicable to the specific situation (e.g., if the transfer is necessary to perform our contract with you, such as when making an international payment) or implement one of the following safeguards to ensure the protection of your personal data:

## Appendix 1

### Processing of personal data to combat money laundering and the financing of terrorism

We are part of a banking Group that must adopt and maintain a robust anti-money laundering and countering the financing of terrorism (AML/CFT) programme for all its entities managed at central level, an anti-corruption program, as well as a mechanism to ensure compliance with international Sanctions (i.e., any economic or trade sanctions, including associated laws, regulations, restrictive measures, embargoes, and asset freezing measures that are enacted, administered, imposed, or enforced by the French Republic, the European Union, the U.S. Department of the Treasury's Office of Foreign Assets Control, and any competent authority in territories where BNP Paribas Group is established).

In this context, we act as joint controllers together with BNP Paribas S.A., the parent company of the BNP Paribas Group (the term "we" used in this appendix therefore also covers BNP Paribas S.A.).

To comply with AML/CFT obligations and with international Sanctions, we carry out the processing operations listed hereinafter to comply with our legal obligations:

- A Know Your Customer (KYC) program reasonably designed to identify, verify and update the identity of our customers, including where applicable, their respective beneficial owners and proxy holders;
- Enhanced due diligence for high-risk clients, Politically Exposed Persons or "PEPs" (PEPs are persons defined by the regulations who, due to their function or position (political, jurisdictional or administrative), are more exposed to these risks), and for situations of increased risk;
- Written policies, procedures and controls reasonably designed to ensure that we do not establish or maintain relationships with shell banks;
- A policy, based on the internal assessment of risks and of the economic situation, to generally not process or otherwise engage, regardless of the currency, in activity or business:
  - o for, on behalf of, or for the benefit of any individual, entity or organisation subject to Sanctions by the French Republic, the European Union, the United States, the United Nations, or, in certain cases, other local sanctions in territories where the Group operates;
  - o involving directly or indirectly sanctioned territories, including Crimea/Sevastopol, Cuba, Iran, North Korea, or Syria;
  - o involving financial institutions or territories which could be connected to or controlled by terrorist organisations, recognised as such by the relevant authorities in France, the European Union, the U.S. or the United Nations.
- Customer database screening and transaction filtering reasonably designed to ensure compliance with applicable laws;
- Systems and processes designed to detect and report suspicious activity to the relevant regulatory authorities;
- A compliance program reasonably designed to prevent and detect bribery, corruption and unlawful influence pursuant to the French "Sapin II" Law, the U.S FCPA, and the UK Bribery Act.

In this context, we make use of:

- o services provided by external providers that maintain updated lists of PEPs such as Dow Jones Factiva (provided by Dow Jones & Company, Inc.) and the World-Check service (provided by REFINITIV, REFINITIV US LLC and London Bank of Exchanges);
- o public information available in the press on facts related to money laundering, the financing of terrorism or corruption;
- o knowledge of a risky behaviour or situation (existence of a suspicious transaction report or equivalent) that can be identified at the Group level.

We carry out these checks when you enter into a relationship with us, but also throughout the relationship we have with you, both on yourself and on the transactions you carry out. At the end of the relationship and if you have been the subject of an alert, this information will be stored in order to identify you and to adapt our controls if you enter into a new relationship with a BNP Paribas Group entity, or in the context of a transaction to which you are a party.

In order to comply with our legal obligations, we exchange information collected for AML/CFT, anti-corruption or international Sanctions purposes between BNP Paribas Group entities. When your data are exchanged with countries outside the European Economic Area that do not provide an adequate level of protection, the transfers are governed by the European Commission's standard contractual clauses. When additional data are collected and exchanged in order to comply with the regulations of non-EU countries, this processing is necessary for our legitimate interest, which is to enable the BNP Paribas Group and its entities to comply with their legal obligations and to avoid local penalties.

## Appendix 2

### Automated decisions

We process some of your data automatically with the aim of making our processes more efficiently as well as evaluating certain personal aspects (profiling). For example, we use such automated decision-making including profiling in the following cases:

- We are required by law and regulation to combat money laundering, terrorist financing and asset-polluting crimes. Data is also evaluated (for example, in payment transactions). These measures also serve to protect you.
- In order to provide you with targeted information and advice on products, we use evaluation instruments. These enable demand-oriented communication and advertising, including market and opinion research.
- We use scoring to assess your creditworthiness. The probability with which a customer will meet his payment obligations in accordance with the contract is calculated. We rely on data collected during the financing application and the existing contractual relationship, as well as data that is publicly available. The calculation may include, for example, income, expenses, existing liabilities, occupation, employer, length of employment, experience gained in the previous business relationship, contractual repayment of previous loans and information from credit bureaus. Scoring is based on a mathematically and statistically recognized and proven procedure. The calculated score values support us in decision-making within the framework of product transactions and are included in ongoing risk management.

If our scoring makes a negative decision based on the information available, we ensure that a manual review is carried out by one of our employees.

If a decision to conclude or perform a contract has been made in an automated process and this decision has legal effect on you or affects you significantly in a similar way, you can request a manual review from us again after you have presented your point of view to your contact person and requested the manual review from them.

You also have the right to object to the processing of your personal data in the context of profiling (see also **section 2.4.**). Further processing by us will then only take place if there is evidence of overriding interests that are compellingly worthy of protection.

## Appendix 3

### Data transmission to Schufa

We transmit to SCHUFA Holding AG, Kormoranweg 5, 65201 Wiesbaden, Germany the personal data collected within the scope of a contractual relationship about the application, the execution and termination of this business relationship as well as data about non-contractual or fraudulent behavior.

The legal basis for these transfers are Art. 6 (1) 1 b and Art. 6 (1) 1 f GDPR.

Transmissions on the basis of Art. 6 (1) 1 f GDPR may only take place if this is necessary to safeguard our legitimate interests or the legitimate interests of third parties and does not outweigh your interests or fundamental rights and freedoms which require the protection of personal data. The data exchange with the SCHUFA also serves the fulfilment of legal obligations to carry out creditworthiness checks of Bank customers (§ 505a of the German Civil Code (BGB), § 18a of the German Banking Act (KWG)).

SCHUFA processes the data received and also uses them for the purpose of profiling (scoring) in order to provide its contractual partners in the European Economic Area and in Switzerland and, where applicable, other third countries (if an adequacy decision of the European Commission exists for these or standard contractual clauses have been agreed, which can be viewed at [schufa.de](https://www.schufa.de)) with information, inter alia, for assessing the creditworthiness of natural persons. Further information on the activities of SCHUFA can be viewed on the SCHUFA information sheet according to Art. 14 GDPR online at [schufa.de/schufa-en/schufa-notification-according-to-art-14-gdpr](https://www.schufa.de/schufa-en/schufa-notification-according-to-art-14-gdpr).
